

AV standard in-house pack in Inner Space

INNER SPACE

Audio:

45 x Ceiling mounted Speakers & Amplifiers

The hall is covered by a PA system mounted in the ceiling. This is zoned so that specific areas can be used for audio reinforcement or the entire area. Background music can be played and/or announcements made from inside the Inner Hall or from the Vision Hall.

Lighting:

Architectural lighting has been installed which has a range of colours to match the corporate branding and mood of events.

Connectivity:

10 x Wall mounted patch panels

There are several wall mounted panels which provide connectivity for video displays, audio and additional AV equipment. Additional equipment can be provided seamlessly through Pixl Evolution's extensive range.

Additional AV equipment for the Town Hall can be procured from the in-house provider Pixl Evolution.
