AV standard in-house pack in Vision Hall

VISION HALL.

Video:

1	x	7.5m x 4.0m (16.9 Ratio) Unilumin UPAD IV 2mm LED.
1	x	Brompton Processing Package
1	x	E2 System and control for source switching
1	x	Laptop & Backup
1	x	Cue Light.

The above will allow clients to display PPT from the laptop provided or their own laptop onto the LED screen. The LED screen has a native resolution of 2880 x 1536 Pixels. The screen is hung off the stage truss points in its upstage position, stage centre. There is a E2 in the MCR provided which allows for synchronised switching. A cue light is also included.

Audio:

1	x	D&B Y Line Array PA system
2	x	D&B Y Sub-Bass speakers
8	x	Amplifiers
1	x	Yamaha DM7 Audio Mixing Desk
1	x	PC Audio Adapter
1	x	Shure AD1 Lapel Radio Microphone
1	x	Shure AD2 Handheld Radio Microphone
3	x	Comms with Headsets for Crew.

The above allows for sound reinforcement covering the whole of the Vision Hall. Audio from the default laptop is routed into the Mixing desk. Two radio mics are provided for speech. One lapel and one handheld. There are 3 sets of headsets for crew communications.

Lighting:

1	x	Grand MA lighting Desk
1	x	Lighting Racks and power distro
46	x	Combination of Static and Moving lighting fixtures.

The above allows for the stage and presenter to be lit to support a basic event. A default room lighting "look" is included.

Rigging.

1	x	Circular Truss
4	x	Linear Trusses
18	x	Motors
2	x	Rigging fixtures on left and right balconies.

This is the default rig. There will be several other points for hanging but these will be at an additional cost.

Technical support.

2   x   Technicians to operate the equipment. They will be on an 8-hour call. Additional hours will be charged at £80 per hour each.

Additional AV equipment for all the above spaces can be procured from the in-house provider Pixl Evolution.
